DVD INTRODUCTION

Millions of citizens' lives will be devastated this year by a crime that should not exist... and yet, a *new victim is realized every minute of every day.*

This crime is so immediate and severe many will lose their home, their car, and their job. **This crime is identity theft.**

Why am I speaking to you about identity theft? I've experienced severe identity theft — and, I refuse to become a victim. This is why I'm standing up as a spokesperson – an advocate for every American — because using stolen SS#'s to mainstream illegals into our society is wrong.

Stealing a SS# is a crime, and yet, the fraud strategy of using false SS#'s is as successful today as it was when identity theft first emerged.

Somebody should be furious.

Fear is being generated by the government and the private sector, and fueled by daily reports in the media.

American citizens are supposed to be protected, but we are not.

This crime is not being addressed.

Two specific identity theft laws were passed. Both have been proven to be ineffective.

Thieves are consistently stealing from millions of citizens and businesses – billions of dollars from our American economy each and every year.

America is being destroyed from within.

When will we say enough is enough?

Bottom line: As citizens we are not protected and our credit and financial records are not secured. It is nearly impossible for the average citizen to fight against this crime. Government agencies, the Justice department and the private sector are still ineffective in this battle.

We are on our own.

So, I've prepared the tools to help us stand up and fight against this crime, together.

This information is critical. I am available to answer your questions, because our identity and our future as Americans is too valuable to allow thieves to steal it and get away with it.
